HONEST MEDICINE.

"FAVORITE REMEDY"

Recommended by Clergymen, Statesmen and Others.

SALT RHEUM

Hon. J. H. Snyder, of Saugerties, N. Y., gratefully testifies to the ability of "Favorite Remedy" as exhibited in the case of his little daughter who was covered with Salt Rheum from head to foot. "Favorite Remedy," says this thankful father, "relieved my girl altogether from this fearful affliction, Salt Rheum. This occurred two years ago, and not a sign of the disease has since appeared." What it did for this child it will do for all who use it.

LIVER DISEASE.

Mr. J. H. Northrop, of Lansingburg, N. Y., for several years Captain of the Troy peller, says: "I have been for a long time a great sufferer from derangement of the liver, and after using many of the medicines recommended for that complaint, Dr Kennedy's 'Favorite Remedy' is the only one which gave me any relief. I firmly believe that the 'Favorite Remedy' is a good, honest preparation; one that may be depended upon."

CHRONIC LIVER DISEASE

Rev. J. G. Smith, of Hartford, Ct., says: Being a great sufferer from Chronic Liver Disease and Indigestion, I at last tried your 'Favorite Remedy' and found immediate relief. I used two bottles, which worked wonders in my general system."

ST. PETERSBURG.

NUMEROUS ARRESTS MADE.

The Nihilists' Headquarters at Genoa.

ST. PETERSBURG, March 21.—The newspapers report numerous arrests during the past few days. At the house of one of the persons captured the police found 700,000 roubles. A man upon whom was found arms, poison and 20,000 roubles was arrested last night. It is stated that two dynamite stores have been discovered.

LONDON, March 21.—A St. Petersburg correspondent says the Municipal Council are considering the advisability of establishing a system of supervision, accompanied by domiciliary visits over every house in the city.

The Prince of Bulgaria has arrived.

A St. Petersburg correspondent says, in consequence of the laxity of the authorities in regard to the discovery of the mine near the new Czar's residence, a court of inquiry has been instituted. A new revolutionary sheet has been circulated addressed to Russian workmen. Cypress trees have been planted around the spot where the Czar fell, and sacred pictures, lamps burning before them, have been placed there. The correspondent adds:—I have reason to believe that the Emperor continues to appreciate the conciliatory tendency of Gen. Melikoff, and that at present no extraordinary measures of repression are contemplated. The council of ministers have decided to proceed immediately with the convocation of commissions, to consider the representation of the people on the state questions.

The Times correspondent at St. Petersburg says the press again invokes the aid of the European Powers in eradicating Nihilism.

The preliminary evidence for the trial of Rousakoff has all been prepared, and the trial only awaits the completion of the act of accusation.

A dispatch from Berlin says it is expected that all the Russian Plenipotentiaries to foreign courts will met at St. Petersburg this week, to consider the foreign policy of the empire. The Czar will preside.

LONDON, March 21.—A Times correspondent shows, by personal experience, that the headquarters of the Nihilists are located at Genoa.

THE ICE BOUND TUG.

Supplied with Food After Forty-eight Hours' Fasting.

CHICAGO, March 21.—It now appears that the report that the tug O. B. Green was at the Crib, as well as the story that the man Bilkhauser had reached her last night are false. Bilkhauser, when the storm overtook him last night, headed for the shore where he arrived safely and was on hand to start early this morning on the tug Crane, which made another attempt to cut a way through the field of ice to the Green. The Crane got within three miles of the ice-locked tug and started Bilkhauser off again over the ice toward her. This time he was seen through glasses by citizens of Hyde Park to reach the Green about 5 o'clock. Capt. Napier, of the Green, accompanied by a boy made the land at Hyde Park, having been over five and a half hours crossing the field of ice and slush between the tug and the shore. When he arrived he was very much exhausted, his feet were badly swollen and his hands were cut by falling through the ice. When he left the tug this morning she was perfectly water tight, but wholly helpless. He and the crew had been fasting forty eight hours on a single small apple, which he happened to have in his pocket. He says the tug is perfectly safe, but will not be able to get free from her Arctic experience until the wind breaks up the ice field.

IRISH MATTERS.

LONDON, March 21.—Several land meetings were held in Ireland yesterday. Dillon spoke at a meeting at Woodford county, Galway. He strongly aspersed the Irish judges.

LONDON, March 21.—The arms bill has received the royal assent.

The Times understands that the attention of the government will be called to the speech made by Mr. Dillon on Sunday, in which he strongly denounced Justice Fitzgerald.

MONDAY BOILER EXPLOSIONS.

Four Men Killed and Five Injured.

ROCHESTER, March 21.—A three-story brick building, one hundred feet square on Water street, owned by the Rochester Hydraulic Company, and occupied for manufacturing purposes, fell in ruins this morning. The cause is believed to have been the explosion of a steam boiler. Joseph Schell, aged 20, was killed instantly on the sidewalk by a falling wall. Four or five other men were injured, none fatally. Loss $20,000.

CLEVELAND, O., March 21.—The boiler in White & Russell's mill at Middlefield, Ohio, exploded this morning from an unknown cause, killing Joseph Hamilton, Selden Sprague and John Patchin.

THE DOUBTFUL COUNTRY.

Sickness in the Boer Camp.

LONDON, March 21.—A dispatch from Durban announces that every preparation for war is making at the front.

LONDON, March 21.—A dispatch from Newcastle, dated today, says it is rumored that the Boers have agreed to all the British conditions except the one requiring them to disarm. As the armistice was to expire today, the British troops were held in readiness for an immediate advance. Much sickness exists in the Boer camp. A later telegram says it is reported that the armistice has been prolonged for a fortnight.

THE NORTHAMPTON BANK ROBBERS.

SPRINGFIELD, March 21.—It now comes out that the bonds taken by the Northampton bank robbers were returned last May. Scott and Dunlap, prisoners at Concord, thinking that the return of the bonds would give them a better chance for pardon, have been anxious to give up the property. The "go-betweens," New York lawyers, would not agree to this. It was finally decided to arrest Leary, Scott and Dunlap agreeing to testify against him if the funds were not forthcoming. Leary was caught, and while he was in Northampton jail the two men at Concord sent word that they would "down him" unless he gave up the property. Leary then weakened, and a New York lawyer gave the bonds to President Edwards in two instalments. Leary tried to make it a condition that he be let off, but the prosecuting officers said the case must go on. Scott and Dunlap refused to appear against their comrade after the bonds had been returned, and so the case slumped.

ILLINOIS JUSTICE.

Might be Tried in Massachusetts for "Shang Draper" and "Red Leary."

NEW YORK, March 21.—A Chicago dispatch says a vigilance committee has been organized at Charlestown, Ill., where many robberies and murders were committed. Thursday night, they took Myron Martin, Wm. Sweeney and Chas. Scott, alias "Grasshopper," all ex convicts, hung them on a tree and whipped them until life was nearly extinct. They were then let down and ordered to leave the country. Fifteen other men were warned to leave within twenty-four hours, or they would be hanged, and they all fled.

TROUBLES IN SPAIN.

Alfonso and the Aristocracy Distressed.

NEW YORK, March 21.—A special Paris cable says quite a sensation was caused in Madrid by the fact that a few hours before King Alfonso received the news of the assassination of the Emperor of Russia he had met a party of workmen, who cried out as he passed, "Long live the Federal Republic; down with the King." The king and aristocracy have been much affected of late by clandestine proclamations and prints of the Federal Juntas that have been distributed in the barracks of the large towns and in the naval arsenals, and that have found their way even into the palace.

SUIT AGAINST THE EQUITABLE LIFE INSURANCE CO.

NEW YORK, March 21.—John H. Bewley and Marietta Bewly have begun suit against the Equitable Life Insurance Company, claiming that it has violated the law governing such corporations by misappropriating its moneys. The plaintiffs, who are policy holders, ask for an account and the appointment of a receiver. Among the alleged misappropriations are mentioned $1,000,000 invested in land and buildings at 120 Broadway, $1,000,000 in the Boston Equitable building, $1,100,000 in the stock of the Mercantile Trust Company, $10,000 for erecting safes in the Equitable Safe Deposit Company, of Boston, besides other investments. The defendants demurred to the complaint, and argument on the demurrer was heard today in the Supreme Court, decision being reserved.

In the Lawrence police court last week John English, Jr., complained of for selling a firkin of oleomargarine as Vermont butter, was fined $100 and costs.

THE ADMINISTRATION IN SOCIETY.

"Perley," the prince of Washington correspondents, gives the following account of the ladies connected with official life at the Capitol. He says that while President Garfield and his Cabinet advisers have quietly taken the reins of Government, courteously handed over by their predecessors—and while the Republican Senators have been battling for the control of the Upper House, so reluctantly relinquished—the ladies of the Administration have taken their positions in a manner satisfactory to those who constitute Washington society.

Mrs. Garfield has held already four receptions, to the diplomatic corps, to the military and naval officers, and to the Senators and Representatives, all accompanied by the ladies of their respective families, by invitation, and on Saturday last to the public. On each of these occasions she was, of course, much criticised, and her deportment and dress met with the heartiest commendation. It is evident that she will be very popular among the society people, and that there is to be a more general attendance of the Washington people at the White House receptions than during the past four years. Indeed, some of the wives of leading Republican Congressmen have not for some time past darkened the doors of the White House any more than have their husbands.

THE SECRETARY OF STATE

Is blessed with a wife who will sustain the reputation established by Mrs. Hamilton Fish, when her husband was the Premier. Mr. Blaine occupies a pleasant house on Fifteenth street, which has always been noted for its hospitality. Mrs. Blaine's cousin, Miss Dodge of Hamilton, Mass., and her eldest daughter, Miss Alice Blaine, aided her in receiving the numerous callers yesterday. Foreign Ministers with their wives, and the wives of officers of the army, the navy, the judiciary, the legislative and the civil service were present in great numbers. It is expected that the Blaines will continue the "Saturday nights" of the Evelses, so attractive to all who enjoyed the privilege of attending them.

SECRETARY WINDOM

Occupies a residence on Vermont avenue which he built a few years since, where he dispenses unostentatious yet generous hospitality. Mrs. Windom is very lady-like, affable and courteous, and she was assisted at her reception yesterday by her sister, Mrs. Hatch. The Windoms have three children—Mr. William D., Jr., who is now in New Hampshire, preparing for college; Miss Helen, who is in her teens, and Miss Nellie, who is only seven years of age. He is said to represent the Quaker element in public life, and to regret having severed his connection with the Senate, where he was a general favorite.

SECRETARY LINCOLN,

So well known here as "the Prince of Rails," is domiciled at Wormley's. Mrs. Lincoln, who was the daughter of Secretary Harlan, is well versed in Washington society. The Lincolns have three children, two daughters and a son, the eldest under twelve years of age. Her reception yesterday was crowded.

SECRETARY HUNT,

Who now presides over the Navy Department, has resided for some years in a pleasant house on Rhode Island avenue, with his accomplished wife and their eight children. Mrs. Hunt, who is a lady of rare accomplishments, was assisted at her reception, yesterday, by her eldest daughter, and by Mrs. Col. Farquar, of New Orleans. Secretary Hunt's eldest son is a graduate of the Naval Academy, at Annapolis, and an ensign in the navy, another son is a graduate from Yale College, where a third son is now a student, while a fourth son is a graduate of the Sheffield Scientific School.

SECRETARY KIRKWOOD

has no great fondness for society, but Mrs. Kirkwood and their adopted daughter, Miss Rachel, are noted for the graceful hospitality dispensed by them during his Senatorial career. Indisposition prevented her from receiving yesterday, and she will soon visit Iowa for a short time.

POSTMASTER GENERAL JAMES

is at the Arlington Hotel, and expects to be joined by Mrs. James today. Their only son is practicing law in New York, and their oldest daughter's husband, Mr. Pearson, has just been appointed Postmaster of that city, as the successor of his father-in-law. Another daughter is now at school in Philadelphia.

ATTORNEY GENERAL MACVEAGH

is at the Riggs House, where he expects a Mrs. MacVeagh tomorrow. She, is well known in Washington society as the daughter of Simon Cameron, and will sustain the reputation of the Camerons for hospitality. The MacVeaghs have a son and two daughters, who are to be with them here. Two of his sons by a former marriage are now in Yale College.

PERSONAL.

Senator Edmunds's health will be benefited, all hope, by his trip to Florida.——Col. Harrison Ritchie, who used to be here during the war as one of Gov. Andrew's aids, is at Wormley's. ——Miss Mason, of Cleveland is a guest at the White House. ——Gen. Edgerton, the new Minnesota Senator, saw a good deal of service in the war.——Mahone is not a Confederate "brigadier," but "a model Major General."

AN ARISTOCRAT OF THE COUNTER.

The Boston Traveller tells this story, to the correctness of which many ladies of other cities are doubtless ready to vouch: "A Rutland-square lady of fortune and fashion ordered her carriage at an unfashionable hour to avoid a crowd in her shopping tour. Over her usually tasteful costume she drew a wrap that was eminently serviceable, but which bore *prima facie* evidence of not being the 'latest style.' With no prophetic intimation of the awful consequences she drove to a Temple Place store which she frequently haunted for the dainty accessories of toilette. The objective point this morning was ties—something of the handsomest there were extant, which both her taste and her purse warranted. Asking for these at the counter the young woman in attendance languidly replied, 'I don't think we have anything that will suit you.' Not willing to burden this saleswoman of the superior insight with judging what particular styles she desired, the lady again begged to know if the house carried any ties at all, and was languidly directed to 'the lower counter,' where another superior being displayed to her the twenty-five cent tie, supposed to correspond to the taste and the means of a customer in an old fashioned wrap. Not yet comprehending the matter, and concluding the store was pervaded by a dense fog of stupidity, the lady drove to a prominent Washington street house. Here she was a regular customer. But, alas for the disguise of a last year's wrap! The penetration of the saleswoman was not equal to the emergency, and again the twenty-five cent ties were in demand. 'But I don't want these. I want a pretty tie,' demanded the lady. 'Something like this,' she continued, taking up one of white silk, embroidered in colors. 'But that is two dollars and a half,' gasped the astonished saleswoman. "You may put it up for me,' calmly responded the lady. 'But I told you it was two dollars and a half,' emphasized the saleswoman. 'And I told you I would take it,' replied the lady. The courtesy of that young woman who presided over the destinies of the counter grew like the crescent moon. The lady, who not only calmly purchased a two dollar and a half tie, but some ten or twelve dollars' worth more of the et ceterns of costume, was an object of consideration. Moral. The costume does not always make the woman. Salespeople should consider the possible richness of the exchequer concealed beneath a last year's fashion; and if this bit of Boston experience secures such timely consideration, it will not have been told in vain."

LITTLE COMPTON.

The proceedings before the Court of Probate and Town Council at their last meeting caused quite an excitement and a large gathering in consequence of a petition pending before the court of the heirs at law for the appointment of Asa P. Manchester, of the city of New Bedford, administrator of the estate of the late Deacon John Dyer.

The widow of Deacon Dyer claimed the right, under the statute law of the state, of administering on the estate herself, or of nominating or appointing one in her stead, and filed a petition to that effect, nominating Dr. Isaac B. Cowen, as he had already been appointed executor by Mr. Dyer, under his will in which there has been so much contention in the law, and not yet settled. The court, regardless of the prayer of the widow, appointed Mr. Manchester, a non-resident of the state, administrator. Whereupon Dr. Cowen, the town clerk, rose and resigned his office as town clerk, with some strong remarks and gave notice of an appeal from their decision to the Supreme Court. The court then appointed F. R. Brownell, Esq., clerk for the time being.

Among other items of interest in this place was the closing exercises of our village school on the commons, taught by Nathaniel S. Brownell, Esq. A large number of visitors were present. The performances were instructive and showed a good degree of proficiency that spoke well for the industry of the scholars and the thoroughness of disipline and instruction received during the past winter. Mr. Brownell has had large experience in school teaching, and is an earnest worker and a thorough educator, determined that whatever is learned in his school shall be so learned as to be available in all after years. His theory is that no scholar be allowed to pass from one study to another or from one part of the same study to another, until he fully understands what he has passed over, and that no vague or indefinite answers from pupils should be tolerated. Mr. Brownell does not seem to think like too many that he is the best instructor "who teaches pupils the greatest number of things," but rather he who awakens the greatest thirst for knowledge and puts the scholar on the right track for acquiring it. Speeches were made by Rev. J. H. Humphrey, of the Methodist Episcopal Church, also by Dr. I. B. Cowen, clerk of the school committee, and by the Rev. A. M. Rice, superintendent of schools. The speeches were spicy and abounded in sound and practical ideas. We understand that Mr. Rice will leave this place soon, causing a vacancy in the office of superintendent which he has so long and ably filled. This is much to be regretted, as it will be difficult if not impossible to fill his place.

MILO.

LITTLE COMPTON, March, 1881.

"There are seventeen and a half men to every female in the Territory of Dakota." "Well," said Miss Jones, spinster, when she read the above item, "if girls know what I know, they'd take that half man rather than none at all."

PORTSMOUTH.

E. T. DeBlois and Benjamin Hall were elected delegates to the Republican Convention.

The farmers are busy. Ploughing has commenced and potatoes are being placed in forcing frames, so that the farming season of 1881 is fairly commenced. The culture of potatoes for the early market is quite a specialty in this section.

Mr. Asa Cory and wife, who have so efficiently filled the place of keepers of the poorhouse for the past two years, will remove to the Christopher Sherman farm, on the middle road, which has been purchased by Mr. Cory, and their places are to be taken by Mr. and Mrs. John Sampson. The inmates of the institution are nine in number at present, including two small boys who have been there but a short time; the other seven are nearly all old and quite infirm.

The funeral of Mr. Asa Borden was solemnized on Friday of last week. He had reached the advanced age of 89 years. His funeral took place in the Christian Church and was conducted by the Society of Friends with whom he was accustomed to meet at their house of worship. Friends Levi Almy, Joseph E. Macomber and Robert A. Sherman making remarks upon the occasion. He was one of the oldest and most respected citizens.

A DIFFERENCE OF OPINION.

Immediately following the decease of Wm. M. Hunt all Americans were in a blaze of admiration for him as an artist and for his works as the highest exhibition of artistic skill. He is still held in the highest reverence among us as a master in his profession but the critics on the other side seem to take a different view of works. The art critic of the London Athenæum writes:—

"At No. 14 Grafton street, Old Bond street, may be seen a considerable number of paintings in oil and drawings in charcoal by the late Mr. William Morris Hunt, who was born in the United States, and received the most valuable part of his professional training in Paris from Couture, and at Fontainebleau from Millet. Excepting a few portraits in oil, among which are characteristic likenesses of Mr. Hunt himself, President Lincoln and the anonymous No. 20 of this collection, few or none of the 119 examples are up to the level of fourth-rate current French painting. The greater part of the landscapes are confusion itself, crude reflections of the technique of Millet, and not equal to the lowest grade of the last Salon. Some of the designs which aim at decoration are demonstrative and French enough for common domestic application in Paris, but as works of fine art they lack noble technical qualities. Mr. Hunt was obviously too ambitious."

"A collection will now be taken up," said the minister. "Deacon Swipes, will you pass——" and that good man, waking suddenly, with his hands full of hymn-books, responded, "No, I'll order it up, by thunder," and then the minister dealt him a dreadful look, and the good man passed out. —[Old Joke.

Dr. S. L. Bowker, Massachusett State Assayer, purchased himself from several wholesale Druggists the samples he analysed of "G. O. Taylor Old Bourbon" Whiskey. The Cost of It.

If the total cost of sickness simply in its business aspects were reckoned up, it would be found to be great enough in five years to pay the national debt. The merchant has a headache, from a fit of indigestion, and misses a good bargain. The lawyer does the same with a case. To say nothing about doctors' fees, etc., it don't pay to be even a little sick. Dr. David Kennedy's "Favorite Remedy" is a friend of the business man, for it clears his brain. CEMETERY MEETING.

The annual meeting of the lot owners of the Island Cemetery was held last evening at the State House. Dr. David King presided and Mr. Henry G. Stevens acted as secretary. Dr. David King, Henry Bull and L. L. Simmons were elected trustees for three years, Mr. Simmons being elected to fill the vacancy occasioned by the death of Gen. Hazard. Mr. Stevens was empowered to apply for an amendment to the charter whereby 15 persons representing not less than 30 lot owners should constitute a quorum instead of 25 representing 50 lots as at present.

From the report presented by the secretary and treasurer, Mr. Stevens, are obtained the following figures, as showing the financial standing of the corporation up to March 4th, 1881:—

Balance on hand	$344.48
Received for lots sold	2,550.00
Received for care of lots	1,198 00
Received for labor material	1,012 49
Received for rents	150 00
Received for interest	705.80
Received for permanent care of lots	600 00
Received for permanent fund	114.00
Total	$6,074.77
Balance	$1,440.86
Estimated value of lots unsold	11,225 00
Estimated value of land	13,000.00
Estimated value of lot on Warner street	1,200.00
Amount of deposit in Savings Bank of Newport	3,108.05

The following reference to the death of two of the trustees was made by the President in his report:—

The trustees have the melancholy duty of reporting the death of two of their late associates since the last meeting of their company, the death of John Alfred Hazard, Esq., and that of William P. Congdon. Mr. Hazard, springing from an ancient family of Newport, and taking a deep interest in everything connected with its prosperity, readily affiliated with our association, as carrying on an important work reflecting credit upon his native town. His memory will be preserved by the endowment he made at the time of his death, of one of Newport's most useful charities, the Newport hospital. Mr. Congdon's activity, prudence and good sense rendered him a valuable member of the board of trustees. As a genial, intelligent and benevolent citizen he will be long remembered in our community.

NEW BOOKS.

SANSKRIT AND ITS KINDRED LITERATURES: Sketches in Comparative Mythology, by Laura Elizabeth Poor, Boston, Roberts Brothers.

The author of this book announces her purpose in the opening chapter in saying that she proposes to write about the literature of different nations and different countries. She proceeds on the assumption that "literature is not many but one," and that the same leading ideas have arisen at epochs far separated from each other. This class of facts she regards as a link in the great chain of development of the human mind. The purpose of the author is reached by a system of comparative mythology, and by profuse illustrations from mediæval literature. The collection of gems from the mass of fable and philosophy that has come down to us makes up a very interesting and instructive volume. It is adapted to the wants of the student and is not without interest even to the cursory reader. One can here compare the ancient bards and the modern poets, as well as the old fables and the more recent faiths. Mrs. Poor has evidently been in love with her subject and has pursued it with the zest of a sincere seeker after knowledge. The only wonder is that so much could be compressed into such brief space and be presented in such attractive form. We are told that the substance of this book, embodying knowledge acquired in a field inaccessible to general readers, was read before some select audiences of very intelligent people in Boston and vicinity, to their great interest and delight, and it is not surprising that they advised its publication in permanent form.

The Principal of the Providence Bryant & Stratton College in order to accommodate the large and increasing number of students has been compelled to lease in addition to his present elegant and commodious rooms a large hall which is being rapidly fitted up, and when finished will, with the other departments, make the finest suite of school rooms in New England. This is one of the leading business colleges in the country, having a large corps of teachers and every facility for giving a thorough and practical business education.

There are only one hundred and sixty consulships which yield one thousand dollars or more a year, and the majority of these positions are filled by gentlemen who will in all probability retain them. But there are no less than five hundred applicants for vacancies. Great is the desire to go abroad at the public expense.

DEATH OF MRS. WHISTLER.

An Atlanta, Ga., paper says: "The death of Mrs. Anna M. Whistler, widow of Major George W. Whistler, and a most estimable Christian lady, occurred at Hastings, England, on the last day of January. Thus passes away another link in the chain of an old and honored military family. Major Whistler was a son of the famous Colonel William Whistler, of the Army, who, with his young bride, fought the Indians on the ground now occupied by the great city of Detroit. A dozen descendants of this gallant soldier have been, since then, in the army, one of whom, Lieutenant Garland N. Whistler, of the Fifth Artillery, is now on duty at McPherson Barracks. Major Whistler, whose widow has just died, graduated at West Point, 1819, and after serving until 1833 in the artillery, resigned and became a noted civil engineer of the St. Petersburg and Moscow railway, in Russia. He died in the former city, April 7, 1849, being then only forty-seven years old. His widow survived him thirty years, and died in a serene and honored old age." She was a relative of the Winan family.

ON WHICH SIDE IS NEWPORT?

ON THE SIDE OF THE OPPRESSOR, OR THE OPPRESSED?

To the Editor of the Daily News:

SIR:—You tell your readers that the principal opponent to the passing of a resolution of sympathy with Ireland in the Rhode Island House of Representatives was the Hon. Wm. P. Sheffield, and this gentleman occupies the place of Representative of Newport. I wonder does Newport confess its inability to understand the question now between the Irish people and the pro-landlord government of England, or does Mr. Sheffield merely represent himself when he says that Americans cannot understand it! I venture to say that there are hundreds in Newport who can and do understand the question and who are prepared to give the Hon. gentleman a lesson in public morality and on the duty which nations as well as individuals owe to each other. From what I have seen of Newport, I would say that its sympathies are on the side of Ireland, and that Mr. Sheffield does not represent this city. There is one thing clear at any rate, that in this particular instance opposition to a resolution of sympathy comes from a man who confesses that he does not understand the question on which he speaks. That is a strong point conceded to the Irish, and they can well afford to dispense with sympathy from such a quarter.

But there must be more than ignorance in his case; there must be prejudice as well; the tone as well as the details of his speech prove this. What is to be predicated of the man who in one breath expresses that he does not understand the case of the Irish, and in the next thunders at them a wholesale charge of "assassination, rapine and murder?" Why, that no American representative but an organ through which landlord libels on the Irish people are brought forth before an American audience, which he assumes to be ignorant of the question and unable to convict him of slander. In his haste to do the work of the British landlords he overlooked the blue book which they got up to justify the passing of the Coercion bill. Let me tell him that that book which, although a mass of exaggerations, repetitions and inventions against the Irish people, furnishes a refutation of the foul aspersion of which your misrepresentative is guilty. No doubt, like many others, he has been under the impression that Ireland has been the scene of scores of murders, at least during the last year and a half. But what will he say when I tell him that the blue book in question gives just five cases of murder in the year 1880! No doubt the newspaper paragraphs and the parliamentary speeches made the impression that the Irish were an exceptionally murderous people; but that bubble is burst by the facts of the case. Examined intelligently the returns show the Irish to be remarkably free from crime at the very time that a Coercion bill was being enacted against them.

Whether Mr. Sheffield's brief contained it or not, the truth is that the Coercion bill, the disarming bill, and the gagging resolutions have all been passed, not against crime but to put a stop to an open, honest, above-board agitation against British landlordism in Ireland. It is the case of Naboth and Jezebel over again; and although Mr. Sheffield may see his way to be on the side of Jezebel, the false witnesses and those who stoned the innocent owner of the coveted vineyard, I know the American people will be on the side of Naboth and the Irish people.

There are numbers in Newport and all over America who can put these two consistent things together—Mr. Gladstone giving notice of a motion to recognize the establishment of the independence of the pro-slavery Confederacy of the South when this country was in the agonies of a civil war: and Mr. Gladstone trying to crush the spirit of the Irish people and bring them down so low that they will accept of a mere shifting of the yoke of the oppressor instead of the entire removal of it. The classes which rejoiced in the setting up of a nation of slave-owners and slaves to be a stigma, a danger, and a condemnation of all popular government are now straining every nerve to keep up their own dominion over the defrauded people of England, Ireland and Scotland; and the millions in America understand this, whatever professional politicians and the various rings may think or say. Let me tell these gentlemen that there are millions in America who see that there is more than ignorance and prejudice even at work in certain quarters in which sympathy is withheld from the victims of British landlordism; they see that there is a fellow-feeling in those quarters for British oppressors, that greedy and unscrupulous men in this country feel the present movement in the British Isles to be a menace against their own ambitious designs; and that one of the best safeguards against the designs which are being hatched against the interests of the American people is an active participation in the struggle which the Irish are making for freedom. They know that the cause of freedom in one country is the cause of freedom all the world over; and they are fast learning that no nation liveth to itself alone, any more than one man liveth unto himself alone; I feel sure Newport, and Rhode Island as a state, will repudiate the words of Mr. Sheffield and the vote of the 27 who followed his misleading advice. They will not lie under the charge that they have sympathy for one victim of assassination because he wore a crown, while they have none for the thousands who are at this moment under notices to quit the land which feeds them—under what Mr. Gladstone himself called "sentences of death." It is quite in keeping with flunkeyism to weep for a crowned head and have no sympathy with the poor. By all means condemn assassination, but condemn the oppression and the oppressors who drive wise men mad. Ireland may be said to be robbed and bleeding in the ditch. I do not believe that Rhode Island will be content to pass by on the other side of the road; it will rather emulate the good Samaritan, who did not inquire to what race or nation the victim belonged, but went and gave him succor. Ireland does not want much. She does not ask for armed intervention, she does not ask for millions of money, she asks for some thousands to keep alive the people who are arrested for non-payment of impossible rents, and she asks for public declarations of sympathy, just to let the oppressor see that he is condemned in the high court of the public opinion of the world. Ireland wants nothing but what America will benefit herself by giving, and everything she does now to aid the victims of British landlordism will be a valuable contribution to the opinion and the strength which will shortly be required in this country to cope with the imitators of the British bosses.

Another thing, be it remembered that when the landlords and the leading newspapers of Great Britain were clamouring to have an antagonistic slave state established on this continent, the British people were true to themselves and to America. The question now between the Irish and the landlord parliament and government is not merely an Irish question, it is a question between the British masses on the one side, and the pro-slavery anti-American representatives of the Norman conquerors on the other; and I know on which side are the heart and soul and intelligence of America, as well as on which side are the avowed ignorance and the irrepressible prejudices of the pro-landlord misrepresentative of Newport in the Rhode Island House of Representatives.

FISHING AND LOBSTERING.

To the Editor of the Daily News:

If the report of the Inland Fisheries Commissioners' statement be true, people must think the fishermen and lobstermen are getting rich, but it is not so; they have to work early and late, and the most of them can but just make both ends meet at the end of the year. People think that if a fisherman goes out one day and makes five dollars that he is getting rich, but there are a great many days that we cannot get off on account of the weather, and in the winter season we can go but very little; and now we hear that the Commissioners and a few gentlemen from the northern part of the state are trying to have a law passed by the Assembly to prohibit the sale of small lobsters. Now a great many families in Newport buy small lobsters because they cannot afford to buy large ones: they can get them for about half the price of large ones. For twenty-five cents they can get a good dinner, while if they bought large ones it would cost them fifty cents, and many people buy small lobsters for fishing bait. If this law is passed it will deprive us of a portion of our living. There seems to be no law to protect the fishermen and lobstermen in this state. Last summer we had many of our lobster pots stolen. After a time some of them were found in possession of other people. Complaints were entered in behalf of the state, but no notice was taken of the complaints. They were finally sent to the United States Marshal and that was the last of it. People come from Massachusetts and Connecticut and catch fish and lobsters in our waters, but we cannot go there and fish without being arrested and fined. If we cannot get any protection in Rhode Island we must appeal to a higher power.

THE PROSPECTS OF LIBERIA.

On the western coast of Africa below Sierra Leone there exists today a small state of pseudo American origin known as the Republic of Liberia. Its age is about thirty-four years: its extent approximates to that of New England: its productions are tropical: its population a curious conglomeration of poor colored emigrants from this country and barbarous aborigines. Financially precarious, politically insignificant, and commercially unimportant, its relations to the world are certainly peculiar. Conceived in a spirit out of joint with the tendencies of the age and by persons who were not over zealous believers in the self-governing capacity of Africans, it has ever been regarded as an unique efflorescence of American ideas. Strangely enough, it has received less recognition from the accidental republic than it has from transatlantic monarchies. Why?

Perhaps because nobody really believed in it. Like many another political fungus it grew out of corruption too offensive to be noticed except per force.

If ever there was a self-contradiction this struggling republic is one. Its founders being intent upon getting rid of dark skinned Americans in some way that would not shock the humane sensibilities of the nineteenth century, it has had to contend with all the difficulties of pioneer life at a great disadvantage: and the result today is a country that exists on sufferance, civilized and barbarous. Not a very pleasant state truly. To forecast its future would be a thankless task to the political prophet. It does not seem likely to be a controlling power on that coast.

The future sentiments of our statesmen regarding it will very probably be what they entertain at present—a profound indifference to its fate. Political philanthropy is very sensitive to self interests and race prejudices, as the Liberians probably know. As a civilizing power its influence is infinitesimal through lack of material means. Ideas languish when unbacked by money, swords and guns. Koffie Kalcali draws the attention much more than the whilom or present President at Monrovia—because he has the golden ax. *Le bache d'or.*

UNCLAIMED ESTATES IN ENGLAND.

The department of state publishes, for the information of the public, a letter addressed to the United States consulate general at London, by the governor of the bank of England, on the subject of unclaimed estates in England. The letter states that there has recently been a marked increase in the previously large number of groundless applications for unclaimed moneys received by the bank from the United States. Nearly the whole of these applications are, so far as the bank is concerned, based on erroneous data, obtained probably from old lists of unclaimed dividends, which referred to funds long since reclaimed. These applications involve considerable expense to the supposed heirs and much unnecessary trouble and correspondence to the bank, and if it were possible to do anything to counteract the effect of such notices as the enclosed, the governor is of the opinion that it would be desirable to do so. The notice referred to is a copy of a handbill published by one Prudence of St. Louis, in which he speaks of the immense amount of treasure in the Bank of England awaiting claimants, and of his facilities for enabling such claimants to recover.

SUPREME COURT—MARCH TERM.

FIRST DAY—AFTERNOON.

The court came in this afternoon at three o'clock. Present Chief Justice Durfee and Justices Potter and Matteson.

In the case of Alfred W. Hill administrator and others vs. Darius Baker administrator and others, the court after hearing the arguments of counsel by agreement, upon demurrer and replication, dismissed the case, rendering up judgment for defendants for their costs.

In the matter of the petition of George B. Hazard for a trial in the case of Samuel R. Honey against him, a new trial was granted and the case remitted to the Court of Common Pleas for that purpose.

Thomas Taylor of Tiverton was admitted to citizenship before Judge Matteson.

Patrick Hayes of Newport was admitted to citizenship before Judge Potter.

The divorce case of Sayer vs. Sayer was called up and set down for hearing on the first day of the adjourned term to be fixed by the court. At four o'clock the court was adjourned to ten o'clock Tuesday morning.

SECOND DAY.

The court came in this morning at ten o'clock. Present Chief Justice Durfee and Justices Potter and Matteson.

The grand jurors were immediately called, after the opening of the court and empanelled with William H. Thurston of Newport as foreman, and were instructed by Judge Durfee in reference to their duties, and retired to their chamber at 10:30 under the direction of Assistant Attorney General Colt.

The petit jurors were then called and sworn and the first petit jury were empanelled with James A. Easterbrooks, of Newport, as foreman, and the case of Charles Spooner vs. Frank G. Harris, for damages for assault, was opened to them by Mr. Peckham on behalf of the plaintiff, at 10:45, Mr. Honey and Col. Van Slyck, of Providence, appearing for defendant. The case occupied the court until nearly one o'clock, when it was given to the jury and a recess taken.

At 1.50 the jury in this case came into court and rendered a verdict for plaintiff for seventy-five dollars damages.

These bonds have a long time to run, and return to investors a high rate of interest, while the amount issued per mile is extremely small.

Don't Be Silly.

Don't let a foolish prejudice against popular medicines stand between you and the health of your wife, child or baby. It is always right to advertise a blessing. Dr. Kennedy's "Favorite Remedy" is a blessing. It has saved thousands, and it will help you. If you are sick and miserable, we advise you to spend One Dollar for this King of Medicines, and then write to the Doctor at Rondout, N. Y., as to how you feel. For troubles of the kidneys, bowels, liver and blood.

A food and a medicine are combined in the most perfect manner in Malt Bitters.

NEWPORT, SC.

SHERIFF'S OFFICE, NEWPORT, December 20, A. D. 1880.

BY VIRTUE and in pursuance of an execution issued out of the Court of Common Pleas of this state, within and for the county of Providence, on the sixteenth day of December, A. D. 1880, and returnable to the term of said court to be holden at Providence, within and for said county of Providence, on the first Monday of June, A. D. 1881, upon a judgment rendered by said court at said Providence on the seventh day of December, A. D. 1880, in favor of the People's Savings Bank in said Providence, a corporation created by the General Assembly of the state of Rhode Island, and transacting business in the city of Providence in said county and state aforesaid, plaintiff, and against Philip D. Borden of Fall River in the state of Massachusetts, defendant, I have this day, at 20 minutes past 12 o'clock, P. M., levied the said execution upon all the right, title and interest which the said defendant, Philip D. Borden, had on the third day of November, A. D. 1879, at 20 minutes past two o'clock, P. M., the time of the attachment on the original writ in this suit, in and to a certain tract or parcel of land with all the appurtenances thereof, situated in the town of Portsmouth in the county of Newport and in the state of Rhode Island, and containing about ten acres of land, more or less, and bounded and described as follows, to wit:—Beginning at the northwest corner of the west lot of said land on the beach and running easterly along the shore bounding northerly on Mount Hope Bay 1184 feet to a stub driven in the beach—thence south nine points west (by a mariner's compass) bounding easterly on the east lot of said tract of land about 27 feet to a stub driven in the beach—thence west one point south along a stone wall bounding southerly on land of Alfred Sisson 1094 feet to a corner—thence north three points east along a stone wall bounding westerly on land of said Alfred Sisson 410 feet to the point of beginning—and the east lot of said tract of land is bounded as follows:—Beginning at the northeast corner thereof to a stub driven in the beach and running south ten points west bounding easterly on land of Alfred Sisson, about 460 feet across the Old Colony Railroad and the salt marsh to the waters of the Town Pond, so called—thence commencing again at said northeast corner at said last mentioned stub and running westerly along the shore, bounding northerly on Mount Hope Bay, about 394 feet to the east side of the creek where it now runs—thence in a straight line across the creek and along said shore about 330 feet to the stub driven in the beach at the northeast corner of the first described lot—thence south nine points west about 394 feet across said railroad to a stub driven in the beach near the mid ile of the original creek on the south side of said railroad—thence following the direction of said creek about 660 feet to the waters of said Town Pond, bounding westerly on land of said Alfred Sisson, southerly on the waters of said pond, or however otherwise the same may be bounded or described—the said railroad running through said last described lot—being the same premises conveyed to Philip D. Borden and Seth R. Durfee by Robert D. Hall of said town of Portsmouth by deed dated March 22, A. D. 1876, and recorded in book 17, pages 232 and 233 of the Land Evidence of said town of Portsmouth—and also by a mutual deed with plat thereto annexed of change of lines in the aforenamed and described premises, made and executed by and between the aforesaid Philip D. Borden and Seth R. Durfee and one Alfred Sisson of said Portsmouth, dated the eleventh day of September, A. D. 1875, and recorded in book 17, pages 203 and 204 of said Land Evidence of said town of Portsmouth, and reference being hereby had to said deeds and said plat recorded as aforesaid, for a more particular description of said bounds and lines, and

NOTICE is hereby given that I will sell the said attached real estate at a public auction to be held in front of the Bristol Ferry House, near the said attached premises, in said town of Portsmouth in said county on WEDNESDAY, the 30th day of March, A. D. 1881, at 12 o'clock, noon, for the satisfaction of said execution, debt, interest on the same, costs of suit, my own fees and all contingent expenses, if sufficient.

KATIE'S ANSWER.

Och, Katie's a rogue, it's thrue,
But her eyes, like the sky, are so blue,
An' her dimples so swate,
An' her ankles so nate,
She dazed, an' she bothered me, too—

Till one mornin' we wint for a ride,
Whin, demure as a bride, by my side,
The darlint she sat,
Wid the wickedest hat
'Neath purty girl's chin iver tied.

An' I said, "If I dared to do so,
I'd let go iv the baste, an' I'd throw
Both arms round your waist,
An' be stalin' a taste
Uv them lips that are coaxin' me so."

Then she blushed a more illigant red,
As she said, widout raisin' her head,
An' her eyes lookin' down
'Neath her lashes so brown,
"Would ye like me to drive, Misther Ted?"

Jones—Certainly, we can give you any information desired on any subject. What's a blizzard? Why—a blizzard is a—a—. You've seen the gentle zephyrs among the trees in spring time, and speaking of spring, it will be very soon, when the buds will put forth and the back yard will need cleaning; when the sweet flowers will perfume the woods, and the melting snow will bring to light two dead cats and a pile of ashes in front of your houses, and— Sir, a blizzard? RUPTURE

Wesley Phillip's Case.

Dr J. A. SHERMAN—Dear Sir: I am happy to inform you that I am entirely cured of my large scrotal rupture. It is one year ago today that I received your treatment. I have tested the cure by going without the appliance. My business is that of a locomotive engineer. My rupture, as you will recall to your mind, was similar to Mr. Jordan's, in your pamphlet of illustrations.

I was ruptured in the year 1863, while in the army. I have tried spring and elastic trusses with great discomfort and injury, my rupture always growing worse. Finding I must get some relief or give up my business, I determined to try you as a last resort, and I must say that I found your treatment a complete success. My improvement and cure have, considering my terrible condition, surprised my friends as well as myself. During your treatment I have worked hard in my business, enjoying both safety and comfort, and have not lost a day's work. My general health has also improved. I will take pleasure in recommending the afflicted to you whenever I have an opportunity.

You may publish this letter for the benefit of humanity. My address is 211 East 44th street. With best wishes I remain yours, respectfully,
WESLEY PHILLIPS.
New York City, Oct. 25, 1880.

Its Relief and Cure as Certain as Day follows Day.

Since the reduction of Dr. Sherman's terms, thousands are crowding upon him for treatment, gladly throwing away their griping, irksome, dispiriting, and life-punishing trusses. His treatment for this affliction makes the patient comfortable and safe in the performance of every kind of exercise or labor. It is a grand thing, and those who are ruptured and do not provide themselves with it must endure the dangers of that precarious affliction and the use of trusses all through life. Thousands of those cured give the most flattering testimonials of gratitude to Dr. Sherman. He is the author and inventor of his popular system; he imparts the secret to no one; it is applicable to all classes and cases, and, under his reduced rate, within the reach of almost everyone.

Patients can receive treatment and leave for home same day. Dr. SHERMAN'S Book on Rupture gives convincing proofs from professional gentlemen and others of his successful treatment. It is illustrated with photograph pictures of bad cases before cure, and is sent to those who send 10 cents. Principal office 251 Broadway, N. Y. Branch office 48 Ninth street, Buffalo. Days in New York—Monday, Tuesday, Saturday. In Boston—Wednesday, Thursday and Friday. 125-4w

POSITIVELY CURED
BY
Benson's Capcine
Porous Plasters.

Reasons Why they are Preferred to All Other Porous Plasters or External Remedies:

First.

Because they possess all the merit of the strengthening porous plaster, and contain in addition thereto the newly discovered powerful and active vegetable combination which acts with increased rubefacient, stimulating, sedative and counter irritant effects.

Second.

Because they are a genuine pharmaceutical preparation, and so recognized by the profession.

Third.

Because they are the only plasters that relieve pain at once.

Fourth.

Because they will positively cure diseases which other remedies will not even relieve.

Fifth.

Because over 5000 physicians and druggists have voluntarily testified that they are superior to all other plasters or medicines for external use.

Sixth.

Because the manufacturers have received the only medals ever given for porous plasters.

THE GREAT

KIDNEY REGULATOR

AND DIURETIC.

Kidnegen is highly recommended and unsurpassed for Weak or Foul Kidneys, Dropsy, Bright's Disease, Loss of Energy, Nervous Debility, or any obstructions arising from Kidney or Bladder Diseases. Also for Yellow Fever, Blood and Kidney Poisoning, in infected malarial sections.

By the distillation of a Forest Leaf with Juniper Berries and Barley Malt we have discovered Kidnegen, which acts especially on the Kidneys and Urinary Organs, removing deposits in the Bladder and straining, smarting, heat or irritation in the water passages, giving them strength, vigor and causing a healthy color and easy flow of urine. It can be taken at all times, in all climates without injury to the system. Unlike any other preparation for Kidney difficulties it has a very pleasant and agreeable taste and flavor. It contains positive diuretic properties and will not nauseate. Ladies especially will like it, and gentlemen will find Kidnegen the best Kidney Tonic ever used.

Notice.—Each bottle bears the signature of Lawrence & Martin, also a proprietary government stamp, which permits Kidnegen to be sold (without license) by Druggists, Grocers and other persons everywhere. Put up in quart size bottles for general and family use. If not found at your druggists or grocers, we will send a bottle prepaid to the nearest express office to you.

THE GREAT

MEDICINAL FOOD

THE SALVATOR FOR INVALIDS AND THE AGED.

AN INCOMPARABLE ALIMENT FOR THE GROWTH AND PROTECTION OF INFANTS AND CHILDREN.

A SUPERIOR NUTRITIVE IN CONTINUED FEVERS, AND A RELIABLE REMEDIAL AGENT IN ALL DISEASES OF THE STOMACH AND INTESTINES.

IMPERIAL GRANUM, this justly celebrated Dietetic Preparation is, in composition, principally the GLUTEN derived from the PURE WINTER FLINT WHEAT CEREAL, a solid extract, the invention of an eminent Chemist. It has not only been highly recommended but certified to by a large number of Chemists and Physicians, possessing a very high degree of medical science as the SAFEST, MOST ACCEPTABLE AND RELIABLE FOOD FOR THE GROWTH AND PROTECTION OF INFANTS AND CHILDREN, and for MOTHERS lacking sufficient nourishment for their offspring.

Unlike those preparations made from animal or vegetable matter, which are liable to stimulate the brain and irritate the digestive organs, it embraces in its elementary composition—

THAT WHICH MAKES STRONG BONE AND MUSCLE, THAT WHICH MAKES GOOD FLESH AND BLOOD. THAT WHICH IS EASY OF DIGESTION—NEVER CONSTIPATING. THAT WHICH IS KIND AND FRIENDLY TO THE BRAIN, AND THAT WHICH ACTS AS A PREVENTIVE OF THOSE INTESTINAL DISORDERS INCIDENTAL TO CHILDHOOD.

And, while it would be difficult to conceive of anything in Food or Dessert more Creamy and Delicious, or more Nourishing and Strengthening as an aliment in Fevers, Pulmonary Complaints, Dyspepsia and General Debility, its Rare Medicinal Excellence in all Intestinal Diseases, especially in Dysentery, Cholera Infantum and Cholera Infantum, has been incontestably proven.
